Mahmoud Saad Mokhtar

Front-End Developer | JavaScript Developer

mahmoudsaad200251@gmail.com | +968 91252875 | Muscat, Oman | LinkedIn | GitHub | Portfolio

Summary

Front-End Developer and Software Engineering graduate (GPA 3.9, Dean's List) with hands-on experience building responsive and interactive web applications using HTML5, CSS3, and modern JavaScript (ES6+). Developed multiple freelance and personal projects featuring dynamic user interfaces, DOM manipulation, LocalStorage, and performance-focused design. Passionate about writing clean, maintainable code and continuously expanding expertise in modern frontend technologies. Seeking a Front-End Developer role to contribute to high-quality, scalable web applications while continuing to grow in modern JavaScript frameworks and front-end architecture.

Experience

Freelance / Personal Projects — Front-End Developer (Self-Directed Projects)

Muscat, Oman | 2025–Present

Personal Portfolio Website Aug 2025 – Present

- Tech Stack: React | TypeScript | Tailwind CSS | Framer Motion
- Developed a dark, bold, responsive portfolio using React, TypeScript, Tailwind CSS, and Framer Motion, implementing reusable components, smooth animations, and a performance-optimized UI for accessibility and cross-device compatibility. Live Demo | GitHub

Task Manager Application Oct 2025 – Nov 2025

- Tech Stack: HTML | CSS | JavaScript | LocalStorage
- Built a responsive task management web app with HTML, CSS, and JavaScript, featuring full CRUD functionality, task filtering, status toggling, soft UI design, and smooth, persistent interactions using LocalStorage. Live Demo | GitHub

Guess My Number Game Jul 2025 – Sep 2025

- Tech Stack: HTML | CSS | JavaScript
- Created an interactive number-guessing game using HTML, CSS, and JavaScript, featuring random number generation, real-time hints, score tracking, high-score saving, dynamic DOM updates, and improved usability. Live Demo | GitHub
